

NOTICE TO THE PEOPLE OF BAY COUNTY

Welcome to the Bay County General Jural Assembly

Restoring Lawful Governance Through Common Law

The **Bay County General Jural Assembly** is a peaceful, nonpartisan, grassroots organization dedicated to the restoration of constitutional governance and the reestablishment of **lawful self-governance** in Bay County, Michigan, through the principles of **common law**.

We, the People of Bay County, have joined together in a unified commitment to reclaim our **God-given, unalienable rights** and to hold **public officials accountable** through the authority vested in the **Common Law Grand Jury**—the final lawful safeguard against tyranny, corruption, and governmental overreach.

Our Purpose and Vision

We reject illegitimate authority derived from corporate mandates, administrative codes, and statutory constructs that undermine the will of the People. We affirm that **all just power derives solely from the consent of the governed**, and that the original intent of our founding documents—the **Declaration of Independence** and the **Constitution for the united States of America**—must be restored and upheld.

Through **public education, civic involvement**, and the reactivation of the **Common Law Grand Jury**, we are building a lawful foundation for future generations to live in **freedom, accountability, and truth**.

Our Mission

To reestablish **De Jure government** in Bay County by:

- Educating the People on their rights and responsibilities under common law
- Organizing a lawfully assembled county body
- Restoring the Common Law Grand Jury as the People's tool for redress and justice
- Holding public servants accountable to their oaths and the People they serve
- Dismantling unlawful corporate governance structures operating under color of law
